Checked articles – at least one copy available in JEM reprint file

Cumulative publications list -- J.E. McDonald

✓"The rate of descent of parachutes from various altitudes" (with K.E. Penrod and G.L. Maison), J. Aero. Sci., 14, 303-310 (1947).

✓"The Coriolis effect", Sci. Am., 186, 72-78 (1952).

✓"Measurement, analysis, and interpretation of turbulent temperature fluctuations", in Geophysical Research Papers, No. 19, 263-280 (1952).

"Erroneous cloud physics applications of Raoult's law", J. Meteor., 10, 68-73 (1953).

✓"The earth's electricity", Sci. Am., 188, 32-37 (1953).

✓"Remarks on the development of the Coriolis principle", Bull. Am. Meteor. Soc., 34, 192-195 (1953).

"On the electrical conductivity of the lower stratosphere", Trans, Am. Geophys. Un., 34, 529-533 (1953).

✓"Homogeneous nucleation of supercooled water drops", J. Meteor., 10, 416-433 (1953).

✓"The shape of raindrops", Sci. Am., 190, 64-68 (1954).

✓"The shape and aerodynamics of large raindrops", J. Meteor., 11, 478-494 (1954).

"An investigation of the Melander effect" (with J.P. Lodge and F. Baer), J. Meteor., 11, 318-322 (1954).

Review of "Physical meteorology" by J.C. Johnson, Bull. Am. Meteor. Soc., 36, 40-41 (1955).

"Paleoclimatology", Chapter 12 of Geochronology, Physical Sci. Bull. No. 2, T.L. Smiley, ed., Univ. Arizona Bull. Series 26, No. 2, April (1955).

"The Coriolis effect", in New Worlds of Modern Science, L. Engel, ed., Dell Publ. Co., 89-98 (1956).

✓"Scientific basis of weather modification", Science, 124, 86-87 (1956).

"Increasing rain artificially", Proceedings 2nd Annual Conf. on Water for Texas, 23-33 (1956).

"Observations of freezing nuclei over the southwestern United States" (with A.R. Kassander, and L.L. Sims), in Artificial Stimulation of Rain, H. K. Weickmann and W.E. Smith, editors, 393-402, Pergamon Press (1957).

"Variability of precipitation in an arid region: A survey of characteristics for Arizona", Tech. Repts. on Met. and Clim. of Arid Regions, No. 1, Inst. Atm. Phys., Univ. Arizona, 88 pp. (1957).

"A critical evaluation of correlation methods in climatology and hydrology", Sci. Rept. No. 4, Inst. Atm. Phys., Univ. Arizona, 36 pp. (1957).

"Collected fragments of a whilom aeropoet", Weather, 12, 107-114 (1957).

"A note on the precision of estimation of missing precipitation data", Trans. Am. Geophys. Un., 38, 657-661 (1957).

"The great aurora of September 22-23", Sky and Telescope, 17, 14-15 (1957).

"'Deposition' - a proposed antonym for 'sublimation'", J. Chem. Phys., 28, 170 (1958).

"Nomenclature of phase transitions", Quart. J. Roy. Meteor. Soc., 84, 74-75 (1958).

"'Deposition' - a proposed antonym for 'sublimation'", Am. J. Phys., 26, 131-132 (1958).

"Nomenclature of phase transition", J. Chem. Educ., 35, 205-206 (1958).

"'Deposition' - a proposed antonym for 'sublimation'", J. Meteor., 15, 245-247 (1958).

"Cloudiness over the southwestern United States and its relation to astronomical observing", Sci. Rept. No. 7, Inst. Atm. Phys., Univ. Arizona (1958).

"The physics of cloud modification", in Advances in Geophysics, v. 5, 223-303, H.E. Landsberg and J. van Mieghem, editors, Academic Press (1958).

"Climatology of arid lands", Arid Lands Colloquia, 2-13, Univ. Arizona (1958-59).

"Cloud photography and cloud physics research", Weather, 14, 247-249 (1959).

"'It rained everywhere but here!' - The thunderstorm-encirclement illusion", Weatherwise, 12, 158-160 (1959).

"Mean upper-air data for selected world stations", Mo. Wea. Rev. 87, 299-300 (1959).

"An analysis of effects of nuclear attacks on Tucson and Phoenix", J. Ariz. Acad. Sci. 1, 41-52 (1959). [Reprinted in Arizona Medicine, 17, 371-492 (1960)].

Contributor to Glossary of Meteorology (physical meteorology area), Am. Meteor. Soc., Boston 638 pp., (1959).

"Annual and seasonal persistence of precipitation in Arizona", Bull. Am. Meteor. Soc., 41, 106 (1960).

Review of "A concise Dictionary of Science", by Frank Gaynor, Bull. Am. Meteor. Soc. 41, 92-93 (1960).

"A comparison of rank-difference and product-moment correlation of precipitation data" (with Christine R. Green), J. Geophys. Res., 65, 333-336 (1960).

"Absorption of atmospheric radiation by water films and water clouds", J. Meteor., 17, 232-238 (1960).

"Cities into targets--Our misplaced missile bases", Nation, 190, 436-438 (1960).

"Direct absorption of solar radiation by atmospheric water vapor", J. Meteor. 17, 319-328 (1960).

"Rates of descent of fallout particles from thermonuclear explosion", J. Meteor., 17, 380-381 (1960).

"The ice-fall problem", Weatherwise, 13, 110-115 (1960).

"Variability factors in mountain-watershed hydrometeorology in an arid region", J. Ariz. Acad. Sci. 1, 89-98 (1960).

"Effects of inhomogeneity and record length on estimates of correlation and variability of precipitation data" (with C.R. Green), J. Geophys. Res., 65, 2375-2381 (1960).

"Effects of electric fields on water-droplet coalescence" (with G.G. Goyer, F. Baer, and R.R. Brahm, Jr.), J. Meteor., 17, 442-445 (1960).

"An aid to computation of terminal fall velocities of spheres", J. Meteor. 17, 463-465 (1960).

"A note on the aerodynamic effects of internal circulations in small raindrops", J. Meteor., 17, 474-475 (1960).

"Remarks on correlation methods in geophysics", Tellus, 12, 176-183 (1960).

"Backlash", in Science 133, 1271 (1961).

"What is a meteorological engineer", in Bull. Am. Meteor. Soc., 42, 122-123 (1961).

"On the ratio of evaporation to precipitation", Bull. Am. Meteor. Soc., 42, 185-189 (1961).

"An historical note on an early cloud-modification experiment", Bull. Am. Meteor. Soc., 42, 195 (1961).

Review of "The mechanics of aerosols by N.A. Fuchs", Bull. Am. Meteor. Soc., 42, 221 (1961).

Review of "Fluid dynamic drag" by S.F. Hoerner, Bull. Am. Meteor. Soc. 42, 302 (1961).

"Comments on 'An airborne cloud-drop-size distribution meter'", J. Meteor., 18, 423-424 (1961).

"An analysis of civil defense hazards being created by emplacement of intercontinental ballistic missiles near Tucson", J. Ariz. Acad. Sci., 2, 3-19 (1961).

"Mean atmospheric residence times for particulate air pollutants", Bull. Am. Meteor. Soc., 42, 664-665 (1961).

"Tucson and the Titans", Arizona Frontiers, Vol. 1, No. 5, 9-10 (1961).

Conference report on "The surface chemistry of ice nucleation", Bull. Am. Meteor. Soc., 42, 723-725 (1961).

"On radar detection of non-spherical ice particles", J. Meteor., 18, 695-697 (1961).

"Airlight simulation experiments", J. Atm. Sci., 19, 114-116 (1962).

"Collection and washout of airborne pollens and spores by raindrops", Science, 135, 435-437 (1962).

"Should we know all the facts about Civil Defense?", Point West, 4, No. 2, 24, 52-53 (1962).

"An aid to study of the heavens", Sky and Telescope, 23, 134 (1962).

Review of "Aerodynamic capture of particles" ed. by E.G. Richardson, Bull. Am. Meteor. Soc., 43, 113 (1962).

"Large-sphere limit of the radar back-scattering coefficient", Quart. J. Roy. Meteor. Soc., 88, 183-186, (1962).

"The evaporation-precipitation fallacy", Weather, 17, 168-177 (1962).

"Effect of momentum-exchange on the fall velocity of accreting hydrometeors" (with H.D. Orville), J. Atm. Sci., 19, 278-280 (1962).

"The evaporation-precipitation fallacy", in Weather, 17, 216 (1962).

"Some models of interest in meteorological thermodynamics", Bull. Am. Meteor. Soc., 43, 292-298 (1962).

"A gigantic cloud bow", Weather, 17, 243-245 (1962).

"A note on anamalous adiabatic cooling rates in clouds", J. Atm. Sci., 19 309-312 (1962).

"Visibility reduction due to jet-exhaust carbon particles", J. Appl. Meteor., 1, 391-398 (1962).

Review of "Thinking about the unthinkable" by Herman Kahn, The Progressive, 26, No. 10, 44-45 (1962).

Review of "Kill and overkill--the strategy of annihilation" by Ralph E. Lapp, The Nation, 195, 379-380 (1962).

Review of "Evaporation and droplet growth in gaseous media" by N. Fuchs, Bull. Am. Meteor. Soc., 44, 103-104 (1963).

"Homogeneous nucleation of vapor condensation. I. Thermodynamic aspects", Am. J. Phys., 30, 870-877 (1962).

"Homogeneous nucleation of vapor condensation. II. Kinetic aspects", Am. J. Phys., 31, 31-41 (1963).

Review of "Clouds, rain and rainmaking" by B.J. Mason, Trans. Am. Geophys. Un., 44, 153-154 (1963).

"Caustic of the primary rainbow", Am. J. Phys., 31, 282-284 (1963).

"Stratospheric cloud over northern Arizona", Science, 140, 292-294 (1963).

"Intermolecular attractions and saturation vapor pressure", J. Atm. Sci., 20, 178-180 (1963).

"Early developments in the theory of the saturated adiabatic process", Bull. Am. Meteor. Soc., 44, 203-211 (1963).

Review of "The microbiology of the atmosphere" by P.H. Gregory, Bull. Am. Meteor. Soc., 44, 267 (1963).

"Accuracy of numerical estimates of the pseudoadiabatic cooling rate", J. Atm. Sci., 20, 240-241 (1963).

"Cloud-ring in the upper stratosphere", Weatherwise, 16, 99 and 148 (1963).

"The research frontier", Saturday Review 46, No. 31, 40 (Rerun of Weatherwise article above).

"The big city atom", Frontier, 14, 5-7 (1963).

"Rain washout of partially wettable insoluble particles", J. Geophys. Res., 68, 4993-5003 (1963).

"The saturation adjustment in numerical modelling of fog", J. Atm. Sci., 20, 476-478 (1963).

Review of "Strategy for survival" by T.L. Martin and D.C. Latham, The Progressive, 27, No. 10, 46-48 (1963).

"James Espy and the beginnings of cloud thermodynamics", Bull. Am. Meteor. Soc., 44, 634-641 (1963).

"Use of the electrostatic analogy in studies of ice crystal growth", Zeit. f. ang. Math. u. Physik., 14, 610-620 (1963).

Review of "Air chemistry and radioactivity" by C.E. Junge, Trans. Am. Geophys. Un., 44, 1019-1020 (1963).

"Atmospheric jet streams" (with D.O. Staley and C.W. Frenzel), Science, 143, 489-490 (1964).

Review of "The physics of rainclouds", by N.H. Fletcher, Science, 143, 236 (1964).

"On a criterion governing the mode of cloud formation in planetary atmospheres", J. Atm. Sci., 21, 76-82 (1964).

"Cloud nucleation on insoluble particles", J. Atm. Sci., 21, 109-116 (1964).

"Pollen wettability as a factor in rain washout", Science, 143, 1180-1181 (1964).

Review of "Our atomic future" edited by M. Grodzins and E. Rabinowitch, The Progressive, 28, No. 10, 40-42 (1964).

"A Thermodynamic Relation in the Theory of Homogeneous Nucleation of Supercooled Droplets," J. Atm. Sci., 21, 225-226 (1964).

Review of "Aerodynamics" by John E. Allen. Science, 144, 707 (1964).

"On a Point of Terminology in the Optics of the Rainbow," with B. M. Herman (Letter), Bull. Am. Met. Soc., 45, 279-280 (1964).

Review of An Introduction to Atmospheric Physics by R. G. Fleagle and J. A. Businger. Trans. Am. Geophys. Un., 45, 323-324 (1964).

"Raindrop Spatter Spots," Weather, 19, 177-179 (1964).

"Meteorological Aspects of Nuclear Reactor Hazards at Bodega Bay," publ. by Northern Calif. Assn. to Preserve Bodega Head and Harbor, June, 1964, 61 pp.

Review of Fluid Mechanics and Heat Transfer by J. M. Kay. Am. J. Phys., 32, 389-390 (1964).

"Atmospheric Exclusion Limits for Clouds of Water and Other Substances," J. Geophys. Res., 69, 3669-3672 (1964).

Review of Environmental Radioactivity by M. Eisenbud. Trans. Am. Geophys. Un., 45, 456 (1964).

Review of Mathematics and the Physical World by Morris Kline. Am. J. Phys., 32, 716-717 (1964).

Review of Mechanics of Aerosols by N. A. Fuchs. Science, 146, 1033-1034 (1964).

"Saturation Vapor Pressures over Supercooled Water," J. Geophys. Res., 70, 1553-1554 (1965).

Review of Weather by P. D. Thompson and R. O'Brien and Weather Eyes in the Sky by J. G. Vaeth (joint review). Science, 149, 739-740 (1965).

Review of Problems of Atmospheric and Space Electricity, ed. by S. C. Coroniti. Science, 149, 1085 (1965).

"Maxwellian Interpretation of the Laplacian," Am. J. Phys., 33, 706-711 (1965).

Review of Cosmic Rays by B. Rossi. Am. Scientist, 53, 380-382 (1965).

Review of Thermodynamics of Clouds by L. Dufour and R. Defay. Bull. Am. Met. Soc., 46, 674-676 (1965).

Review of Physics of the Earth's Upper Atmosphere by C. Hines et al. Bull. Am. Met. Soc., 46, 804-806 (1965).
